Objective

Java Full Stack Developer skilled in Java, Spring Boot, React, MySQL, and REST APIs. Experienced in building full-stack web applications through internship and personal projects. Seeking software development internships to contribute and enhance backend and frontend development skills.

Experience

Java full stack Intern,

Jan 2025 - May 2025

@Test Yantra Software Solutions

Worked on Java full stack development projects, gaining practical experience in building and understanding complete web applications. Demonstrated a strong work ethic, consistency, and eagerness to learn under professional mentorship.

Education

- Excel Engineering College, Computer Science Engineering 2028
- Sri Ramakrishna Mission Vidyalaya Polytechnic College, Diploma EEE 2023
- J-Spiders, Bangalore, Java Full Stack Development 2025
- Sri Saraswathi Matric Higher Secondary School Maths Biology 2021

Skills

- Web Technology: HTML, CSS, Tailwind CSS, JavaScript, React-JS
- Backend: Java, JDBC, Hibernate, Spring Boot (REST APIs, Spring Security, JWT)
- Database: MySQL, SQL, MongoDB (basics)
- Tools: GitHub, Postman, Eclipse, VS Code, MySQL Workbench, Docker (basics), Linux CLI

Projects

- FreshMart – Full Stack Grocery Shopping Platform**
Developed a full-stack online grocery shopping platform using React and backend technologies, enabling users to browse products, view details, manage shopping carts, and complete secure checkout processes. Implemented responsive user interfaces, product categorization, cart management, and order workflows to provide a seamless and user-friendly e-commerce experience.
GitHub Repository - <https://github.com/sanjaiarivu/FreshMart>
- DataStory AI**
Developed an AI-powered full-stack web application that converts uploaded datasets into meaningful insights, summaries, and data-driven stories. Implemented end-to-end file upload and processing functionality using React and backend APIs, enabling seamless data analysis and visualization.
